Organization of Triangles Alumni Association

"Once a Triangle girl, always a Triangle girl."

College/University & Work Experience Questionnaire

The Organization of Triangles Alumni Association was founded over two years ago in an effort to preserve the bonds of sisterhood in our membership throughout their adult lives. Since that time, we have found hundreds of past Triangle members who have gone on to achieve remarkable things with their adult and professional lives. We hope that the success of our Alumni will be an inspiration to our current membership, and want to share the stories and struggles of our Alumni with the young women who are currently embarking on the path to adulthood.

In an effort to achieve this goal, we are starting a networking database of colleges and universities that our Alumni have attended, to be made available to the current members. Our college-bound members will then be able search the database and contact Alumni who attended various colleges to discuss their experience, and receive advice and encouragement. This may prove to be an invaluable tool for young women who may be undecided where they would like to attend school, or provide them information about various career paths open to them.

Please fill out the questionnaire below and email to alumni@nytriangle.org or return to:
